Phase I Environmental Site Assessment
FORMER SHELL STATION (VALERO)
200 South Azusa Avenue, West Covina, California

EXECUTIVE SUMMARY

Celly Services Inc. (CSI), in conjunction with AdvancedGeo, Inc. (AGI) conducted this Phase I Environmental Site Assessment of the Former Shell Station property located at 200 South Azusa Avenue, West Covina, Los Angeles County, California, in conformance with the scope and limitations of ASTM Standard Practice E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (40 CFR Part 312).

PROPERTY USE

The subject property is located on the northeast corner of East Garvey Avenue S and Azusa Avenue, in a commercial area in the City of West Covina, California. The property is developed with a fueling station and convenience store and is currently occupied by Valero fuel distributor.

Based on a review of historical documents, the subject property was utilized for agricultural /orchards at least since the 1920s. The property was developed in 1957 as a fuel service station has been utilized as such since that time. The property is currently occupied by a Valero service station and a convenience store. Servicing of vehicles are not currently being conducted at the subject property.

FINDINGS

Based on the standards set by ASTM Standard Practice E1527-21, a recognized environmental condition (REC) is defined as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. Conditions that are determined to be *de minimis*, which generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies, are not recognized environmental conditions. Conditions that are considered Business Environmental Risk include the presence of asbestos-containing materials, lead-based paint, mold or moisture conditions, or non-hazardous regulated materials.

The standard further identifies historical RECs and controlled RECs. An historical REC (HREC) is a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (ie. activity and use limitations or other property use limitations). A controlled REC (CREC) is a REC that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (activity and use limitations or other property use limitations).

The following findings are differentiated below as Business Environmental Risks and *de minimis* conditions unlikely to be subject to government enforcement, HRECs, CRECs, RECs and potential non-ASTM environmental issues (issues that fall outside the definition of RECs).

BUSINESS ENVIRONMENTAL RISK

This assessment has revealed no evidence of potential Business Environmental Risks in connection with the subject property, except for the potential of asbestos containing building materials and lead-based paint. An asbestos and a lead-based paint survey is required by local regulations prior to demolition or renovation of the building.

DE MINIMIS CONDITIONS

This assessment revealed no evidence of potential or *de minimis* conditions in connection with the subject property, except

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of HRECs in connection with the subject property with the exception of the following:

- Regulatory agency records that were reviewed as part of this Phase 1 assessment indicate that the LADPW had a permit on file for the removal of two 5,000-gallon steel, two 8,000-gallon steel and one 10,000-gallon fiberglass USTs from August 1986. Apparently, results had not been provided to the LADPW and they were requesting that just the laboratory report needed to be submitted. Attached to the letter was a letter report from Geo-Etka, Inc. dated 25 August 1986. Five soil samples had been collected by Geo-Etka and analyzed by Anaheim Test Laboratory. The samples were analyzed for total hydrocarbons, BTE&X and total lead. All analytes in the samples were below detectable limits and is therefore considered an HREC.

- In June 2004, piping and dispensers were upgraded. As part of the project, nine soil samples were collected beneath dispensers and piping. TPH-g (gas range) was detected in three samples at concentrations ranging from 0.44 mg/kg to 6.4 mg/kg. TPH-d (diesel range) was detected in two samples at 19,000 mg/kg and 48 mg/kg. MTBE was detected in two samples at 390 ug/kg and 45 ug/kg. Based on these results, the northwest dispenser islands, adjacent product trench and southern dispenser island were excavated on 18 June 2004 to remove the hydrocarbon impacted soil. Following the excavation of 146 tons of soil, confirmatory soil samples were collected. One sample contained TPH-g at 45 mg/kg, TPH-d at 5.7 mg/kg, MTBE at 1,100 ug/kg and TBA at 7,300 ug/kg. One additional piping excavation sample contained TBA at 46 ug/kg. The soil was transported to TPS Technologies in Adelanto, CA for recycling. Based on the results, the LADPW requested that a workplan to assess the vertical and lateral extent of the impacted soil in a letter from February 2007. No work was completed and in May 2013, the LADPW referred the case to the Regional Water Quality Control Board. The case was reviewed by the State Water Resources Control Board Order WQ 2014-0158-UST which was issued on 06 October 2014, indicates that the remaining contaminants falls under the Low Threat Closure Policy and as such requires the issuance of a uniform closure letter. On 03 March 2015, the Regional Water Quality Control Board issued a case closure letter. CSI compared the results of the impacted soil left in place to the current residential Environmental Screening Levels (ESLs), established by the Regional Water Quality Control Board in 2019. The concentrations of TPH-d, MTBE and TBA fall below residential screening levels and therefore are considered a REC.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of CRECs in connection with the subject property.

RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of RECs in connection with the subject property.

POTENTIAL NON-ASTM ENVIRONMENTAL ISSUES

This assessment has revealed no evidence of potential non-ASTEM environmental issues in connection with the subject property, except

CONCLUSIONS AND OPINION

Celly Services, Inc. has performed a *Phase I Environmental Site Assessment* in conformance with the scope and limitations of ASTM Practice E1527-21, US-EPA AAI for the property located at 200 S. Azusa Avenue, West Covina, California. It is the opinion of the environmental professionals that the findings and conclusions presented in this report are reasonable and prudent, given the evidence as presented. CSI did not identify any RECs on the subject property during the course of the Phase I. CSI has no recommendations for additional investigations at the subject property at this time.

It should be noted that hydrocarbon impacted soil is present on the subject property will be encountered during future grading operations. Impacted soil may also be encountered near the clarifier/hoists in the repair area. CSI recommends that any impacted soil that is encountered be segregated, sampled for waste profiling purposes, and transported to a licensed disposal or recycler facility.

CRITICAL DATES

Report Issuance Date	13 June 2024
Date of Interview of Past and Present Owners and Occupants Identified in Section 10 of ASTM 1527-21	05 June 2024
Date of Recorded Environmental Cleanup Lien Search	N/A
Date of Visual Inspection of Subject and Adjoining Properties	05 June 2024
Earliest Date of Interviews, Lien Search, Record Reviews, and Inspections	05 June 2024
Report Viability Date	09 December 2024
Report Shelf Life (requires update after 180 days)	12 June 2025

The Phase I Environmental Site Assessment report cannot be older than 180 days prior to closing to be valid for a property transfer. In accordance with 40 CFR 312.20 for All Appropriate Inquiries, the following components of the Phase I report must be updated, if more than 180 days has lapsed from the issuance date:

- Interviews with past and present owners, operators, and occupants (40 CFR 312.23)
- Searches for recorded environmental cleanup liens (40 CFR 312.25)
- Reviews of federal, tribal, state, and local government records (40 CFR 312.26)
- Visual inspections of the facility and adjoining properties (40 CFR 312.27)
- The declaration by the Environmental Professional (40 CFR 312.21)

The shelf life of the Phase I Environmental Assessment report, and corresponding update, is one year, or 360 days from the original report issuance date. If more than one year has lapsed from the report date prior to closing, a new Phase I report must be obtained to qualify for the innocent landowner, contiguous property owner or bona fide prospective purchaser limitations on CERCLA liability.

Phase I Environmental Site Assessment
FORMER SHELL STATION
200 South Azusa Avenue, West Covina, California

1.0. INTRODUCTION

Celly Services, Inc. (CSI), in conjunction with AdvancedGeo, Inc. (AGI), has conducted a Phase I Environmental Site Assessment (Phase I) of the property located at 200 South Azusa Avenue, West Covina, Los Angeles County, California (hereafter referred to as subject property or property). The Phase I was performed in conformance with the scope and limitations of ASTM Standard Practice E1527-21 and the United States Environmental Protection Agency (USEPA) Standards and Practices for 'All Appropriate Inquiries (AAI)' (40 CFR Part 312). This Phase I is designed to provide the Client (user) with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

1.1. PURPOSE

The purpose of the Phase I is to identify and assess environmental characteristics of the subject property that could lead to liability in the event of ownership, that could have a potential impact on property value or that could impact the present or future use of the subject property.

The purpose of ASTM Standard Practice E1527-21 and USEPA AAI is to define good commercial and customary practice for conducting an environmental site assessment of a parcel of commercial real estate with respect to the range of contaminants within the scope of the *Comprehensive Environmental Response Compensation and Liability Act* (CERCLA) and petroleum products. As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability: that is, the practice that constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C. §9601(35)(B). An evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that identified in this practice (based on ASTM Practice E1527-21).

The goal of ASTM Standard Practice E1527-21 is to identify *recognized environmental conditions* (RECs) in connection with the subject property. A REC is defined as: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. Conditions that are determined to be de minimis, which generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies, are not recognized environmental conditions. Conditions that are

considered Business Environmental Risk include the presence of asbestos-containing materials, lead-based paint, mold or moisture conditions, or non-hazardous regulated materials.

The standard further identifies historical RECs and controlled RECs. An historical REC (HREC) is a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (ie. activity and use limitations or other property use limitations). A controlled REC (CREC) is a REC that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (activity and use limitations or other property use limitations).

1.2. SITE DESCRIPTION

The subject property is located on the northeast corner of East Garvey Avenue South and South Azusa Avenue, in a mixed residential and commercial area in the City of West Covina, California. The property is development with an automotive fuel and service station and a convenience store. Further property location descriptions, characteristics, improvements and site vicinity characteristics are discussed below.

1.2.1. Location and Legal Description

The subject property location can be identified as the following:

Site Address	200 S. Azusa Avenue, West Covina, CA 91791-1903
Assessor's Parcel Number (APN)	8478-007-042
Property Owner	ENVISION WC TOY RE LLC
Land Use Type	AUTOMOTIVE USES
Legal Description	POR LOTS 27 AND 39 TR=18268 AND POR OF SD RANCHO OF RANCHO LA PUENTE
Size of Property	0.454 ACRES
Year Built	1975

The parcel map and owner information were provided by ParcelQuest/CD Data as a representation of current data downloaded monthly from the County Assessor's Office. Copies of the parcel map and the owner information are provided in Appendix B.

1.2.2. Site and Vicinity General Characteristics

The subject property is located within a residential and commercial area of the City of West Covina, Los Angeles County, California. Figure 1 shows the setting of the subject property (7.5 Minute United States Geological Survey [USGS] Topographic Series, Baldwin Park, California Quadrangle). Photographs of the subject property are provided in Appendix A.

1.2.3. Current Use of Property

The property is developed with an automotive fuel and service station and a convenience store. It is our understanding that plans call for the demolition of the service station to be incorporated into expansion plans for the adjacent Toyota dealership.

1.3. DETAILED SCOPE-OF-SERVICES

Except where identified in Section 8.1., the scope of work for this Phase I conforms to ASTM Standard Practice E1527-21 and the USEPA AAI (40 CFR Part 312). Any additional User requested scope of services are discussed in Section 7.0.

1.4. SIGNIFICANT ASSUMPTIONS

Our professional services were performed using that degree of care and skill ordinarily exercised by environmental consultants practicing in this or similar fields. Findings were based mainly upon examination of historical records, maps, aerial photographs and government agency lists, on a site reconnaissance visit, and on information obtained during personal interviews with persons of long-term familiarity with the subject property as specified in ASTM E1527-21 and the USEPA AAI. Hazardous waste site lists presented in this report represents only a search of specific government records as listed below. AGI is aware additional government records may exist. It should be noted that government agencies often do not list all sites with environmental contamination or that the list could be inaccurate and/or incomplete.

Groundwater flow and depth to groundwater, unless otherwise specified by on-site well data, or well data from adjacent sites, are assumed based on geologic interpretations from available sources. AGI assumes the property has been correctly and accurately identified by the client, designated representative of the client, property contact, property owner, and property owner’s representatives.

1.5. LIMITATIONS AND EXCEPTIONS

Property conditions, as well as local, state, tribal and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented as a

result of this study apply strictly to the environmental regulations and property conditions existing at the time the study was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the property. CSI makes no warranty, expressed or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the study.

Considerations identified as beyond the scope of an ASTM Phase I that may affect business environmental risks at a property include the following: asbestos-containing materials (ACMs); biological agents; cultural and historic resources; ecological resources; endangered species; health and safety; indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment; industrial hygiene; lead-based paint (LBP); lead in drinking water; mold; radon; regulatory compliance; and wetlands. These environmental issues may warrant assessment based on the type of property or transaction, however, they are considered non-scope issues under ASTM Practice E1527-21. Any addition of non-scope items must be agreed upon between the user and CSI prior to initiation of the Phase I.

The Phase I Environmental Site Assessment is not, and should not be construed as, a warranty or guarantee about the presence or absence of environmental contaminants that may affect the property. Neither is the assessment intended to assure clear title to the property in question. The sole purpose of investigation into property title records is to ascertain a historical basis of prior land use. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, and observations and conditions that existed on the date and time of the property visit.

1.6. SPECIAL TERMS AND CONDITIONS

There were no special terms or conditions, agreed upon by the environmental professional, beyond the initial agreed upon scope of work, used in preparation of this report.

1.7. USER RELIANCE

Conclusions and recommendations in this report are based on findings regarding historical use of the site, and on features noted during the site reconnaissance. The absence of any potential gross contamination sources, historic or present, does not necessarily imply that the site is free of any contamination. This report only represents a ‘due diligence’ effort as to the current environmental status of the site. No other warranty,

expressed or implied, is made as to the professional recommendations contained in this report.

2.0. USER PROVIDED INFORMATION

According to the ASTM Standard E1527-21 and the USEPA AAI, in order to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability offered by the *Small Business Liability Relief and Brownfields Revitalization Act of 2001*, the client (user) must provide to the environmental professional the following information (if available) in relation to the subject property:

Title Records	A review of Title Records was not requested by the user.
Environmental Liens or Activity and Use Limitations	An environmental lien or AUL's (activity and usage limitations) search was not requested by the user.
Specialized Knowledge	CSI was not provided any specialized knowledge by the user and does have not any specialized knowledge of this property outside of what is contained in this report. The property ownership and tenants as well as all individuals who were interviewed as part of this investigation, have not reported any specialized knowledge of this property outside of what is contained in this report.
Commonly Known or Reasonably Ascertainable Information	The user provided no commonly known or reasonably ascertainable information available within the local community about the subject property that is material to recognized environmental conditions in connection with the property.
Valuation Reduction for Environmental Issues	No property valuation reduction related to environmental issues or concerns was reported by the user.
Owner, Property Manager, and Occupant Information	No written or verbal communication with the property owner, manager and/or occupant revealed any information which suggested that there are currently or historically any recognized environmental conditions associated with the subject property not noted in this assessment.
Reason for Performing Phase I	Loan refinance
Other	No modifications to the ASTM E1527-21 standard scope-of-services were requested by the user for special circumstances that might be encountered at the subject property. Any additional user requested scope of services are discussed in Section 7.0.

Failure to provide the above information could result in a determination that ‘all appropriate inquiries’ are not complete. Additional items should be collected, if available, and provided to AGI.

3.0. RECORDS REVIEW

The purpose of obtaining and reviewing subject property and site vicinity historical, physical setting, and regulatory records is to help identify *recognized environmental conditions* in connection with the subject property.

3.1. HISTORICAL USE INFORMATION

The objective of consulting historical sources for a Phase I is to develop a history of previous uses of the property and surrounding area to help identify the likelihood of past uses having led to recognized environmental conditions with respect to the property. All obvious uses shall be identified from the present to the property's first obvious developed use, or back to 1940, whichever is earlier. Review of standard sources at less than five year intervals is not required.

3.1.1. Historical Use Information on Subject Property

Subject property history was researched by reviewing historical Sanborn Fire Insurance Maps (no coverage), aerial photographs, topographic maps, telephone directory information, Los Angeles County Assessor's Office records and the West Covina Building Department records.

Based on a review of historical documents, the subject property was utilized for agricultural /orchards at least since the 1920s. The property was developed in 1957 as a fuel service station has been utilized as such since that time. The property is currently occupied by a Valero service station and a convenience store. Servicing of vehicles are not currently being conducted at the subject property.

In summary, review of the historical documents revealed no features on the subject property of environmental concern with the exception of the long-term use of the subject property as a service station as well as the service station located immediately west of the subject property. Representative historical records are provided within Appendix B.

3.1.1.1. Sanborn Fire Insurance Maps

Sanborn Fire Insurance maps were developed in the late 1800s and early 1900s for use as an assessment tool for fire insurance rates in urbanized areas but are now utilized as a valuable source of historical and environmental risk information. EDR owns the largest collection of Sanborn Fire Insurance Maps. AGI requested EDR to provide any Sanborn Fire Insurance Maps that might cover the subject property. Sanborn Fire Insurance Map coverage is not available for the subject property.

3.1.1.2. Aerial Photographs

AGI reviewed aerial photographs of the subject property and surrounding area that were provided by EDR and viewed online through Google Earth for the years 1928, 1938, 1948, 1954, 1964, 1972, 1977, 1981, 1983, 1990, 2002, 2005, 2009, 2012, 2016, 2020, 2021, 2022, 2023 and 2024. The following is a summary of our review of the aerial photographs:

Year(s)	Aerial Photo Summary
1928, 1938, 1948	The subject property is part of an orchard. Roads are present in the current location of Azusa Avenue to the immediate west. Orchards are present to the immediate north, south, east and west of the property. Walnut Creek is located approximately 1,650 feet to the south.
1954	The subject property is unchanged. Orchards are present immediately north, west and east of the subject property. Residences are present immediately to the south.
1964, 1972	The 1964 photograph shows the subject property is developed with service station with two fuel island canopies. The building is in the southeastern portion of the property and fuel island canopies are to the west and north of the building. East Garvey Avenue S is located immediately north of the subject property, followed by a vacant field. By 1972, East Garvey Avenue S is developed in it's current position immediately south of the subject property. A commercial building (liquor store) is located immediately east of the subject property. A service station is present immediately west, across Azusa Avenue. Residences are present to the south.
1977	The service station on the subject property has been developed with it's existing building in the northeastern portion of the property and two fueling canopies to the west and south of the building. The USTs are located in the southwestern portion of the property. The land to the south is under development to reroute Garvey Avenue S. A building is present in the southern end of the property. The surrounding land is generally unchanged, however, the service station to the west has been redeveloped.
1981, 1983	The subject property is unchanged. The land immediately north of the subject property has been developed with the existing automobile dealership. The remaining surrounding properties are unchanged.
1990, 2002, 2005, 2009, 2012, 2016, 2020, 2021, 2022, 2023, 2024	The subject property is unchanged. The building to the east of the subject property (liquor store) has been demolished and the land developed into a parking lot that is part of the automobile dealership to the north. Two residences to the south of the

Year(s)	Aerial Photo Summary
	subject property have been demolished by 2002 and a developed with a commercial automobile sales building. This building was demolished by 2009 and developed into the existing parking lot used by Norm Reeves Honda.

A review of historical aerial photographs did not reveal any items of environmental concern in connection with the subject property with the exception of the long-term use of the subject property as a service station as well as the service station located immediately west of the subject property.

3.1.1.3. Historical Topographic Maps

AGE reviewed historical topographic maps of the subject property and surrounding area that were supplied by EDR for the years 1894, 1897, 1898, 1904, 1923, 1927, 1953, 1966, 1972, 1981, 1991, 1994 and 2012. The following is a summary of our review of the topographic maps:

Year(s)	Historical Topographic Map Summary
1894, 1897, 1898, 1904	Subject property is mapped as undeveloped land. Azusa Avenue does not extend south of a roadway that located in the current position of Intestate 10. The immediately surrounding land to the north, south, east and west is mapped as undeveloped. Sporadic building footprints are mapped throughout the area further north of the subject property. The town of Covina is located approximately ¾ mile to the northeast and Walnut Creek is located approximately ¼ mile to the south.
1927	The subject property is mapped as undeveloped. Azusa Avenue is present immediately west of the subject property. Additional development has occurred in the Covina.
1953	The subject property is mapped within an orchard. The land immediately north and east of the subject property is part of the orchard. Residential neighborhoods are present to the west and south.
1966, 1972, 1981	The subject property is mapped with a building on the northern half of the property. East Garvey Avenue S is located immediately north of the subject property. By 1981, East Garvey Avenue S has been developed in it's current location south of the subject property. A commercial building footprint is mapped immediately east of the subject property. A building footprint is mapped immediately to the west across Azusa Avenue. The area south of the subject property is shaded pink indicating urban development.
2012, 2015, 2018, 2021	These topographic series only show elevation contours, roads and waterways. No development features are depicted.

A review of historical topographic maps did not reveal any items of environmental concern in connection with the subject property.

3.1.1.4. Street Directories

CSI requested that EDR provide a review of city and street directories to determine the occupancy history of the subject property and adjacent properties. EDR provided a review of directories at approximate 5-year intervals between 1951 and 2020. The property to the south, 1816 East Garvey Avenue S, was not listed in the directories. The following is a summary of available listings within the directory search:

Location/Address	Directory Listing Summary
SUBJECT PROPERTY 200 South Azusa Avenue	1961, 1963: Brooks & Davis Shell; 1973, 1976, 1982, 1987, 1992: Gerry Peterson Shell; 1995: West Covina Shell, Peterson Shell; 2005, 2010: West Covina Shell Auto; 2014: West Covina Shell Auto, Advanced Auto Smog Star; 2020: West Covina Shell Auto
ADJACENT - NORTH 1800 East Garvey Avenue S	1987: Bozzani Motor Car, Bozzani Porsche; 1992: Bozzani Hyundai, Pontiac Service; 1995, 2010, 2014: West Covina Toyota
ADJACENT - EAST 1810 East Garvey Avenue S	1961, 1963: Perino's Delicatessen & Liquor; 1973, 1976, 1982, 1987: Perinos Liquor Store
ADJACENT- WEST 201 South Azusa Avenue	1961, 1963, 1973: Bill Hinkley's Service (service station); 1976, 1982: Lens Service (Lens Mobil Service); 1987: Vidanes Service Center; 2005: Mobil; 2010: Dan's Mobil, Dan's Auto Service; 2014: Eagle Oil 1 Inc.; 2020: Circle K

A review of historical telephone directory listings of the subject property address did not reveal any items of environmental concern with the exception of the long-term use of the subject property as well as the property to the west as service stations.

3.1.1.5. Building Department Records

The West Covina City Clerk's office provided permits and certificates of occupancy on file with the West Covina Building Division. Records ranged from 1957 to 2024 and included various electrical, plumbing, signage, mechanical and building permits. Pertinent permits are listed below:

Date	Permit/Document	Summary
6/11/1957	Building	New 3 room, 25'x95' service station building.
6/19/1957	Plumbing	Permit for lavatory, water closet, floor drain, drinking fountain, urinal and sand trap (clarifier).
4/20/1959	Certificate of Occupancy	Indicates Shell Oil occupies a Type IV building.
6/22/1960 (final)	Building	392 square foot addition to station.
2/24/1975	Building	Demolish existing service station.
6/13/1975 (final)	Building	Shell service station. Move structure form Montclair.
6/1981	Building	Erect 72' square foot cash booth.
02/12/2009	Building	Install new GVR canister polisher, upgrade monitoring system for CVR canister I.S.D. vapor pump

A review of historical public building of the subject property address did not reveal any items of environmental concern with the exception of the long-term use of the property as a service station since 1957.

3.1.1.6. Assessor's Records

ParcelQuest provides basic information from the Los Angeles County Assessor's office. The records are discussed in Section 1.2.1.

3.1.1.7. Previous Phase I and II Environmental Site Assessments

No previous Phase I or Phase II Environmental Site Assessments were provided for review.

3.1.2. Historical Use Information on Adjoining Properties

Historical uses of immediately adjoining properties are summarized below.

North	The land to the north of the subject property was undeveloped or agricultural from at least 1894 to the mid-1950s. By 1964, East Garvey Avenue South is located immediately north of the subject property followed by undeveloped land. East Garvey Avenue South was developed in its current position to the south of the subject property by 1972. The land remained vacant until the early 1980s when the existing automobile dealership was constructed. The dealership has been used to sell Porsche, Audi and Toyota which it remains to this day.

South	The land to the south of the subject property was undeveloped or agricultural from at least 1894 to the late-1940s/early-1950s. By 1953, a residential tract ha is located immediately to the south. By 1972, East Garvey Avenue S is present. By 2002, two residences had been demolished and an automobile sales building and parking lot were developed. By 2009, the automobile sales building was demolished, and the land converted to the existing parking lot used by Norm Reeve's Honda.
East	The land to the east of the subject property was undeveloped or agricultural from at least 1894 to the mid-1950s. By 1961, the land was developed with a liquor store and delicatessen north of the subject property followed by undeveloped land. East Garvey Avenue South was developed in its current position to the south of the subject property by 1972. The land remained vacant until the early 1980s when the existing automobile dealership was constructed. Between 1987 and 1990, the building was demolished and repurposed into the existing parking lot that is part of the Toyota dealership to the north.
West	The land to the east of the subject property was undeveloped or agricultural from at least 1894 to the mid-1950s. By 1961, the land was developed with a service station to which it remains to this day.

Historical uses of adjoining properties do not appear to be of environmental concern to the subject property with the exception of the service station located immediately west of the subject property.

3.2. PHYSICAL SETTING

Geology	The subject property is located in the San Gabriel Valley which is in the northern portion of the Los Angeles Basin in the Transverse Range geologic province. The Transverse Range province is characterized as an elongated geomorphic and structural unit that trends in an east-west direction through parts of Santa Barbara, Ventura, Los Angeles, San Bernardino and Riverside Counties. This province is bound by the Coast Ranges and Sierra Nevada provinces to the north and the Peninsular Range province to the south (CDM, 1954). According to the CDM (1954), this province can be divided into thirteen distinct well-defined topographic and geologic units. The subject property is situated in one unit that represents the northern third of the Los Angeles Basin. This portion of the Los Angeles Basin adjoins the San Gabriel Mountains to the north and includes the thickly alluviated San Gabriel Valley and the intra-basin Repetto and San Jose Hills. Most of this basin is underlain by Tertiary sedimentary and volcanic rocks. The Los Angeles Basin was a large marine embayment during the Miocene which extended as far inland as Pasadena and Pomona and merged with the Ventura Basin. By the Pliocene, the embayment was smaller and generally covered an area slightly larger than the present-day lowlands. Subsequent regressions of the coastline, as well as uplift, have exposed the current basin. The sedimentary deposits in the deepest portion of the basin since the Miocene (in the Peninsular Range portion of the Los Angeles Basin) are reportedly as thick as 20,000 to 40,000 feet.

	The subject property is situated on Holocene alluvial fan deposits which consist of silt, clay, sand and gravel (CDMG, 1986; CDWR, 1966). The alluvium was derived from the erosion of the San Gabriel Mountains to the north.
Hydrology	The subject property is located in the 195 square-mile San Gabriel Valley Ground Water Basin (CDWR Basin No 4-13). The boundaries of this basin include the Whittier Narrows area to the southwest, the Raymond Fault to the northwest, the San Gabriel Mountains to the north and the San Jose Hills to the east. This basin is drained by the Rio Hondo and San Gabriel Rivers. The groundwater has beneficial uses and is a drinking water source for 34 incorporated cities and unincorporated areas (CDWR, 1975). According to information obtained from the Geotracker database for, groundwater beneath the subject property is estimated at depths in excess of 150 feet bsg. Regional groundwater flow is determined to in a south-southwesterly direction (LA-DPW, 1996).
Topography	The property is located at an elevation of approximately 453 feet above mean sea level (MSL), in an area of low topographic relief. Regional slope of the area is toward the general southwest.
Surface Soils	EDR provides a report listing dominant soil composition in the general area of the subject property based on information from the United States Department of Agriculture's Soil Conservation Service STATSGO (State Soil Geographic Database) soil maps. Soil surface texture at the subject property consists of soil identified as URBAN LAND, a variable soil texture in an unclassified Hydrogeologic Group. Corrosion potential of this soil for uncoated steel is not reported.
Surface Water Features	There are no surface water features on the subject property. The nearest surface water feature in the vicinity of the subject property is Walnut Creek, located approximately ¼ mile to the south.
Flood Zone	The EDR database report shows that the subject property is located in the 0.2% Annual Chance Flood Zone. This data, available in select counties across the country, was obtained by EDR from the Federal Emergency Management Agency (FEMA) which has maps depicting FEMA-defined zones.
Wetlands	The EDR database report shows that the subject property is not located within the National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR from the U.S. Fish and Wildlife Service.

3.3. STANDARD ENVIRONMENTAL RECORD SOURCES

A computer search of federal, state and regional regulatory agency databases was performed by Environmental Data Resources Inc. (EDR), a data retrieval company, to provide current regulatory database information compiled by a variety of federal and state regulatory agencies. A complete list and description of databases investigated, in compliance with ASTM E1527-21 and USEPA AAI, is included in EDR Report provided in Appendix C.

3.3.1. Subject Property Database Search

The subject property address of 200 S. Azusa Avenue is listed on the following governmental databases in the EDR Report:

Facility Name	Database(s) & Summary
Shell	RGA LUST – Indicates the site was listed on a leaking underground storage tank database from 2007 to 2012.
West Covina Shell	HWTS, HAZNET – Indicates that tank bottom waste was removed under manifest from the subject property.
Peterson Gerald	EDR Hist Auto – Listing indicates that the property has been a gasoline service station/automotive repair shop from at least 1969 to 2014.
West Covina Shell	SWEEPS UST, CAFID UST, LOS ANGELES CO. HMS, HWTS, RCRA – NonGen /NLR – The business had five underground storage tanks (USTs) permitted in 1989. The LADPW has also had closed regulatory files for the USTs.
SAS C-Stores Inc.	RCRA NonGen / NLR – The business is listed as not generating federal waste. No violations are listed.
Shell Service Station	RCRA-SQG, FINDS, ECHO – The business is listed as a small quantity generator of hazardous waste, including ignitable waste and benzene. The business is listed on the Federal Registry System and is listed in RCRA Info with EPA ID number CAD981466121.
Shell	UST FINDER RELEASE – Listed as site with leaking underground storage tank that had a No Further Action status.
West Covina Shell	CERS HAZWASTE, CERS TANKS, HWTS, CERS – CERS listings indicate the business is permitted to operate USTs as well as is a hazardous materials generator. Hazardous waste removed under manifest between 1996 and 2010 has included aqueous solution with total organic residues <10%, unspecified oil-containing waste and aqueous solution with total organic residues >=10%. CERS lists numerous violations for operating without a permit under new ownership, failure to maintain under-dispenser containment, sumps, or other secondary containment, failure of line detector monitoring, etc.
West Covina Shell Au	LUST, FINDS, Cortese, LOS ANGELES CO. HMS, HWTS, CERS – Listing indicates that a release of gasoline had impacted the soil. The leak was reported in 2004 and the site was referred to Water Board in 2013. The case ultimately issued a case closure under the Low Threat Closure Policy on 03 March 2015.
SAS C-Stores Inc.	ECHO - The business is listed on the Federal Registry System and is listed in RCRA Info with EPA ID number CAL000474172.
Shell	UST – Listing indicates that the business had closure denial sand approved orders in 2014. The State Water Resource Control Board became involved and closed the case.

Facility Name	Database(s) & Summary
West Covina Shell Au	UST FINDER – Lists four USTs that were installed in 1986 including three 10,000-gallon gasoline, one 10,000-gallon diesel and one 550-gallon waste oil USTs.
Equilon Enterpries	HWTS, HAZNET – Hazardous waste was generated and removed under manifest between 1986 and 2008. Wastes include other inorganic solid waste, off-specification, aged or surplus inorganics, aqueous solution with total organic residues <10%, aqueous solutions with total organic residues >=10%, waste oil and mixed oil, tank bottom waste, organic liquids with metals (alkaline solution (pH >=12.5)) and empty containers less than 30 gallons.
Shell	SPILLS 90 – Indicates in 2007 that the gasoline impact to soil was still an open case.
West Covina Shell Au	ECHO - The business is listed on the Federal Registry System and is listed in RCRA Info with EPA ID number CAL000457575.
Peterson Shell	HWTS – The business was on the hazardous waste tracking system between 1989 and 1998.
SAS C-Stores, Inc.	UST, LOS ANGELES CO. HMS – The business is permitted by the Los Angeles County Fire Department for a standalone tank. A permit was also closed.
Peterson Shell Service	HIST UST – Historical listing indicating four USTs had been on the property.

3.3.2. Site Vicinity Database Search

Sites with recognized environmental conditions surrounding the subject property are typically of concern to the subject property when they are located in an up-gradient direction from the property with respect to the ground water flow direction. Typically, groundwater would represent the migration medium for contaminants over significant distances. Sites located in equi-gradient or down-gradient directions from the subject property are less likely to impact the subject property.

AGI retained EDR to provide current regulatory database information compiled by a variety of federal and state regulatory agencies. A copy of the complete database is included in Appendix C. The following information was obtained:

Type	Regulatory Agency Database	AMSD	Number of Sites within the AMSD
Federal	National Priority List Sites: **NPL, Proposed NPL, NPL LIENS**	1 mile	0
Federal	Delisted National Priority List Sites: **Delisted NPL**	½-mile	0

Type	Regulatory Agency Database	AMSD	Number of Sites within the AMSD
Federal	Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Sites: **FEDERAL FACILITY, SEMS**	½-mile	0
Federal	CERCLIS No Further Remediation Action Planned (NFRAP) Sites: **SEMS-ARCHIVE**	½-mile	0
Federal	Resource Conservation and Recovery Act (RCRA) Corrective Action Report Sites: **CORRACTS**	1 mile	**1**
Federal	RCRA Non-CORRACTS Treatment, Storage, or Disposal (TSD) Sites: **RCRA-TSDF**	½- mile	0
Federal	RCRA Generator Sites: **RCRA-LQG, RCRA-SQG, RCRA - VSQG**	¼-mile	10
Federal	Institutional Control/Engineering Control Registry Sites: **LUCIS, US ENG CONTROLS, US INST CONTROL**	½-mile	0
Federal	Environmental Response and Notification System Sites: **ERNS**	<1/8-mile	0
State & Tribal	Equivalent to NPL: **RESPONSE**	1 mile	**1**
State & Tribal	Equivalent to CERCLIS: **ENVIROSTOR**	1 mile	**1**
State & Tribal	Solid Waste Disposal Facilities and/or Landfill Sites: **SWF/LF**	½-mile	**3**
State & Tribal	Leaking Storage Tank Sites: **LUST, INDIAN LUST, SLIC**	½-mile	**7**
State & Tribal	Registered Storage Tank Sites: **FEMA UST, UST, AST, INDIAN UST**	¼-mile	**16**
State & Tribal	Voluntary Cleanup Sites: **INDIAN VCP, VCP**	½-mile	0
State, Tribal and Local	Brownfield Sites: **BROWNFIELDS, US BROWNFIELDS**	½-mile	0
Local	Registered Storage Tank Sites: **SWEEPS UST, HIST UST, CA FID UST**	¼-mile	**28**
Local	Dry Cleaning Facility Sites: **DRYCLEANERS**	¼-mile	0
Either	Unmappable Database Listings: **orphan sites**	Database dependent	**5**

AMSD: Appropriate Minimum Search Distance

AGI's review of the referenced databases also considered the potential or likelihood of contamination from adjoining and nearby sites. To evaluate which of the adjoining and

nearby sites identified in the regulatory database report present an environmental risk to the subject property, AGI considered the following:

- The type of database on which the site is identified;
- The topographic position of the identified site relative to the subject property;
- The direction and distance of the identified site from the subject property;
- Local soil conditions in the subject property area;
- The known or inferred groundwater flow direction in the subject property area;
- The status of the respective regulatory agency-required investigation(s) of the identified site (if any); and
- Surface and subsurface obstructions and diversions (e.g., buildings, roads, sewer systems, utility service lines, rivers, lakes and ditches located between the identified site and the subject property.

Only those sites that are judged to present a potential environmental risk to the subject property and/or warrant additional clarification are further evaluated. Using the referenced criteria and based on a review of readily available information contained within the regulatory database report, AGI did not identify adjacent or nearby sites (e.g. within ¼-mile radius) listed on the regulatory database report that were judged to present a potential environmental risk to the subject property with the exception of the following:

Site	Distance & Direction[1]	Database(s) & Summary	Environmental Concern[2]
Bozanni Pontiac/Hyundai, Penske Toyota Scion of West Covina, West Covina Toyota, Clippinger Motors, Envision Toyota 200 S. Azusa Avenue 1800 – 1808 East Garvey Avenue S	Immediately adjacent NNE, up-gradient	RGA LUST, FINDS, LUST, Cortese, HIST CORTESE, CERS, HAULERS, HWTS, AST, HWTS, HAZNET, FINDS, ECHO, RCRA-SAG, CERS HAZ WASTE, SWEEPS UST, CERS TANKS, CA FID UST, LOS ANGELES CO. HMS, CIWQS, UST FINDER RELEASE, FINDS, RCRA NonGEN / NLR, HIST UST - Listings indicates that a release of gasoline from an underground storage tank impacted the soil only. The leak was detected in 1992 and the case was closed by the local regulatory agency on 18 February 1993. Hazardous waste was removed from the property between 1991 and 2021. Wastes include other organic solids, off-specification, aged or surplus inorganics, other inorganic solid waste, aqueous solution with total organic residues <10%, oil/water separation sludge, organic liquids with metals (alkaline solution (pH >=12.5), aqueous solution with total organic residues >=10%, hydrocarbon solvents, unspecified aqueous solution and unspecified oil containing waste.	No indication - based on deep depth to groundwater, down-gradient position and regulatory case closure.

Site	Distance & Direction[1]	Database(s) & Summary	Environmental Concern[2]
Mobil #17-M51V, ExxonMobil, Circle K Stores 201 S. Azusa Avenue	113 feet W, cross-gradient	LUST, Cortese, HIST CORTESE, CERS, RCRA NonGen / NLR, CERS HAZ WASTE, CERS TANKS, CHIMRS, SWEEPS UST, CA FID UST, EDR Hist Auto, UST, HIST UST - An active service station, this site had a leaking UST that impacted the soil with gasoline. The case was opened on 04 April 1986 and received a case closure on 21 April 1986. Another gasoline release was discovered in 2007 during a repiping operation. Following site assessment, the case was deemed eligible for closure in 2013 and received a case closure in January 2018.	No indication - based on deep depth to groundwater, down-gradient position and regulatory case closure.
Penske Moto Group 2010 E. Garvey Avenue	1225 feet ENE, cross-gradient	LUST, Cortese, LOS ANGELES CO. HMS, CERS – This site had a release of waste oil from a UST that impacted the soil only. The case was closed in October 2007.	No indication – based on distance, depth to ground water and position from the subject property.

Notes:
1: distance and direction from subject property
2: environmental concern based on the EDR report
SP: subject property

N: north
S: south
E: east
W: west

NE: northeast
SE: southeast
NW: northwest
SW: southwest

3.4. ADDITIONAL ENVIRONMENTAL AGENCY RECORD SOURCES

In addition to the EDR computer search of federal, state and regional regulatory agency databases, AGI contacted appropriate regulatory agencies to review records regarding the property and surrounding sites identified as having recognized environmental conditions that have the potential to impact the subject property based on groundwater flow direction, distance from the subject property and nature of the releases causing the environmental condition.

Additional agency searches include the following:

- Los Angeles County – Department of Public Works (LADPW) and the Los Angeles Regional Water Quality Control Board (Regional Board) maintain records of industrial violations for this area and are the lead agencies for the enforcement of the State Underground Storage Tank and Hazardous Waste Laws for West Covina. CSI requested to review any files that were available.
- The Regional Board also maintains and online computer database, GeoTracker, that provides listings of closed and active sites related to unauthorized releases of hydrocarbons as well as solvents, metals, and other materials. For listed sites, online reports are commonly available. CSI reviewed the GeoTracker database for information that may be available for the subject property or surrounding sites.
- The California Department of Toxic Substances Control (DTSC) is the State of California agency responsible for oversight of hazardous waste regulations, cleanup of existing contamination, pollution prevention and reduction in hazardous

waste and toxic materials and identification of potential new pollutants. The DTSC maintains the EnviroStor Data Management System (ENVIROSTOR) which allows for the search for information on investigation, cleanup, permitting and/or corrective actions that are planned, being conducted or have been completed under DTSC oversight. CSI reviewed the ENVIROSTOR database for any information that may be available.

- The United States Environmental Protection Agency (USEPA) provides an online computer database, ENVIROFACTS, providing lists of sites listed on multiple USEPA databases. CSI reviewed the ENVIROFACTS database for any information that may be available.
- The Los Angeles County Fire Department (LACFD) conducts hazardous materials inspections and does conduct site mitigation projects not conducted under LADPW, Regional Board or DTSC oversight. The LACFD was contacted online to determine if they had any permit, inspection and/or violation records or site cleanups for the subject property.
- The California Geologic Energy Management Division (CalGEM) maintains the Well Finder website, allowing for the search of oil and gas related information. CSI reviewed the website for any oil and gas information in the vicinity of the property.

3.4.1. Additional Subject Property Record Sources

The subject property address was searched on the following record sources:

SOURCE	SUMMARY
Regional Board & GeoTracker database	Files available from Geotracker/Regional Board include: • Product Piping and Dispenser Upgrade Soil Sampling Report, prepared by Wayne Perry, 10 September 2004. On 15 June 2004, nine soil samples were collected beneath dispensers and piping during an upgrade project. TPH-g (gas range) was detected in three samples at concentrations ranging from 0.44 mg/kg to 6.4 mg/kg. TPH-d (diesel range) was detected in two samples at 19,000 mg/kg and 48 mg/kg. MTBE was detected in two samples at 390 ug/kg and 45 ug/kg. Based on these results, the northwest dispenser islands, adjacent product trench and southern dispenser island were excavated on 18 June 2004 to remove the hydrocarbon impacted soil. Following the excavation of 146 tons of soil, confirmatory soil samples were collected. One sample contained TPH-g at 45 mg/kg, TPH-d at 5.7 mg/kg, MTBE at 1,100 ug/kg and TBA at 7,300 ug/kg. One additional piping excavation sample contained TBA at 46 ug/kg. The soil was transported to TPS Technologies in Adelanto, CA for recycling. • A landowner notification letter from the LADPW to the Shell Oil, dated 15 February 2007 was sent requiring a list of all landowners.

SOURCE	SUMMARY
	• Letter from LADPW to Regional Board, dated 30 May 2013, indicating that after review of the 10 September 2004 report, the case was being referred to the Regional Board for further oversight. • State Water Resources Control Board Order WQ 2014-0158-UST. This order, dated 06 October 2014, indicates that the remaining contaminants falls under the Low Threat Closure Policy and as such requires the issuance of a uniform closure letter. • Underground Storage Tank Case Closure for Shell, issued by the Regional Board on 03 March 2015. This letter officially closes the case with regards to the work conducted in 2004.
DTSC & ENVIROSTOR database	The subject property is not listed on the ENVIROSTOR database and the DTSC does not have records on file.
USEPA ENVIROFACTS	The subject property is not listed on ENVIROFACTS.
LADPW	The LADPW has numerous records for the subject property dating from 1986 through the present. The majority of these files are tank tightness testing results, leak detection results, minor violations and corrections, etc. In addition, several reports are included for the removal of USTs. The following is a summary of pertinent documents: • Gregg and Associates letter to Shell, dated 13 July 1988. According to Gregg, the LADPW had a permit on file for the removal of two 5,000-gallon steel, two 8,000-gallon steel and one 10,000-gallon fiberglass USTs from August 1986. Apparently, results had not been provided to the LADPW and they were requesting that just the laboratory report needed to be submitted. Attached to the letter was a letter report from Geo-Etka, Inc. dated 25 August 1986. Five soil samples had been collected by Geo-Etka and analyzed by Anaheim Test Laboratory. The samples were analyzed for total hydrocarbons, BTE&X and total lead. All analytes in the samples were below detectable limits. • LADPW Hazardous Materials System Tank Inspection Job Order, dated 26 June 1995 – Lists the current USTs which include two 10,000-gallon regular unleaded gasoline double walled USTs, one 10,000-gallon premium unleaded gasoline double walled UST, one 10,000-gallon diesel double walled UST and one 550-gallon oil double walled UST. • Soil Sampling Report, by Wayne Perry, dated 13 November 1998. As part of the underground storage tank upgrade requirements of 1998, under dispenser containment was required under all eight dispensers. Soil samples were collected beneath the dispensers during the upgrade. TPH-g was detected under two dispensers at 1.2 mg/kg and 220 mg/kg. MTBE was detected under four dispensers at

SOURCE	SUMMARY
	concentrations ranging from 0.034 mg/kg to 0.664 mg/kg. Benzene was not detected in any samples. • GRASP Site Assessment Report, prepared by KHM Environmental Management, dated 09 May 2003. GRASP is a voluntary initiative by Shell to install groundwater monitoring wells at sites nationwide that do not have active release cases but are in close proximity to one or more public water supply wells. KHM drilled one boring on site to 110 feet below surface grade. Groundwater was not encountered. PID readings were low (below typical background of 10 ppmv, therefore no soil samples were collected. • Product Piping and Dispenser Upgrade Soil Sampling Report, prepared by Wayne Perry, 10 September 2004. On 15 June 2004, nine soil samples were collected beneath dispensers and piping during an upgrade project. TPH-g (gas range) was detected in three samples at concentrations ranging from 0.44 mg/kg to 6.4 mg/kg. TPH-d (diesel range) was detected in two samples at 19,000 mg/kg and 48 mg/kg. MTBE was detected in two samples at 390 ug/kg and 45 ug/kg. Based on these results, the northwest dispenser islands, adjacent product trench and southern dispenser island were excavated on 18 June 2004 to remove the hydrocarbon impacted soil. Following the excavation of 146 tons of soil, confirmatory soil samples were collected. One sample contained TPH-g at 45 mg/kg, TPH-d at 5.7 mg/kg, MTBE at 1,100 ug/kg and TBA at 7,300 ug/kg. One additional piping excavation sample contained TBA at 46 ug/kg. The soil was transported to TPS Technologies in Adelanto, CA for recycling. • LADPW letter dated 15 February 2007 to Shell. The letter indicates that the 2004 report was reviewed and a work plan to delineate the vertical and lateral extent of contamination was required. • Letter from LADPW to Regional Board, dated 30 May 2013, indicating that after review of the 10 September 2004 report, the case was being referred to the Regional Board for further oversight. • Application of Transfer of Hazardous Substances Underground Storage Permit, dated 10 October 2020. Transfers the UST permit to West Covina Shell Auto Care, Inc. Permit covers the four 10,000-gallon USTs and the 550-gallon UST.
LACFD	The LACFD indicated that their agency does not have documents on file.
CalGEM	According to CalGEM, no oil and/or gas wells are located in the vicinity of the subject property.

3.4.2. Additional Site Vicinity Record Sources

The LADPW, Regional Board and DTSC maintain records for, and are responsible for, enforcement of state UST and hazardous waste laws. CSI commonly reviews files for up-

gradient sites under active environmental regulation to ascertain the current site status and its potential to impact the subject property. No sites, under active or past environmental regulation, were identified by the database search within the required search radius of potential concern to the property.

3.5. PROVIDED SUBJECT PROPERTY RECORDS

No records were provided to CSI.

3.6. VAPOR ENCROACHMENT CONDITION

The encroachment of hydrocarbon and volatile organic compound (VOC) vapors into soil pore space occurs when organic chemicals migrate from contaminated groundwater or soil into the airspace between soil particles. Some typical organics involved are petroleum based or chlorinated solvents (e.g, BTEX and dry cleaning chemicals). They may have leaked into the groundwater and/or soil from underground storage tanks, or buried waste, or from disposal in septic systems.

In compliance with ASTM Standard E2600-15 (Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions), AGI evaluated the potential for a Vapor Encroachment Condition (VEC) at the subject property. Based on a VEC screening, it was determined that ‘a VEC does not exist’ at the property. A copy of the AGI-generated Tier 1 VEC screening form is provided within Appendix E.

4.0. SITE RECONNAISSANCE

A subject property site reconnaissance was conducted by an AGI representative on 05 June 2024. At the time of the site visit the weather was clear and warm. Primary features of the property are shown in a site plan provided in Figure 2. Photographs of selected features of the subject site are included in Appendix A.

4.1. METHODOLOGY AND LIMITING CONDITIONS

The property was fully accessible during the site reconnaissance. No limiting conditions were noted.

4.2. GENERAL SITE SETTING

The following is a description of the primary features of the subject property observed at the time of the site visit:

The subject property is a 19,795 square foot parcel of land developed with a fueling /service station currently operated by Valero. The building on the northeast of the property which is 2,465 square feet in size consists of two service bays on the north half and a

convenience store on the south half, including a restroom and two storage rooms. The service bays are not being utilized at present. During the site inspection AGI observed an above ground hydraulic lift on the south service bay and a piston associated with an inground hydraulic lift and a 3-stage clarifier on the north side service bay.

On the center west of the property are two fuel islands with four fuel pumps and on the center southside of the property is one fuel island with one fuel pump. The site has four (4) 10,000-gallon underground storage tanks with two tanks holding unleaded gasoline, one (1) tank holding premium unleaded gasoline and one (1) tank holding diesel fuel. All the tanks are connected to a leak monitoring system located in the service building that is monitored at all times by the convenience store employee.

Additionally, a compressor was observed in the outside storage closet on the east side of the building and a locked cage with cans of liquid petroleum gas for retail sale was observed outside on the northwest exterior of the building.

There are two ingress/egress points from both South Azusa Avenue on the west and East Garvy Avenue South from the south of the property.

The following is a description of the property improvements:

Structures	One (1) building 2,457 sq. ft. and three fuel islands with canopies.
Adjoining / Access / Egress Roads	South Azusa Avenue on the west and East Garvy Avenue South from the south.
Surface Types	Asphalt where buildings or fuel islands are not present.
Additional Features	None
Surface Water	No
Potable Water Source	Valley County Water District
Sanitary Sewer Utility	City of West Covina
Storm Drain Utility	City of West Covina
Electric Utility	L & R Electric Company
Natural Gas Utility	Southern California Gas Co.
Heating & Air Conditioning	Roof mounted packaged units

At the time of the site reconnaissance, current uses of adjacent properties included the following:

North	Envision Toyota auto and service dealership.
South	East Garvey Avenue South and auto dealer parking lot beyond.
East	Envision Toyota auto dealer parking lot
West	South Azusa Avenue and Mobile fuel station across from South Azusa Avenue

Current uses of the adjoining properties do not appear to be of potential environmental concern to the subject property except the Mobile fuel station across from South Azusa Avenue.

4.3. EXTERIOR AND INTERIOR OBSERVATIONS

The following was observed at the time of the property reconnaissance:

YES	NO	CONDITION OBSERVED ON/AT SUBJECT PROPERTY
	X	**Pits, ponds or lagoons with respect to waste treatment or disposal**
	X	**Stained soil or pavement, patched pavement**
	X	**Stressed vegetation (from causes other than insufficient water)**
	X	**Fill dirt from unknown source, or contaminated source**
	X	**Solid waste (mounds or depressions suggesting waste disposal)**
	X	**Waste water / storm water discharged into a drain, ditch or stream**
	X	**Wells (abandoned, irrigation, domestic, monitoring or oil and gas)**
	X	**Dry wells**
	X	**Septic systems or cesspools**
	X	**Movement of hazardous materials to adjacent properties**
X		**Hazardous substances and/or petroleum products.**
		Fuel dispensing facility with 4 10,000-gallon USTs.
	X	**Above-ground storage tanks (ASTs) for storage of petroleum products and/or hazardous substances**
X		**Underground storage tanks (USTs) for storage of petroleum products and/or hazardous substances.**
		Four (4) 10,000-gallon underground storage tanks with two unleaded gasoline tanks, one (1) premium unleaded gasoline tank and one (1) diesel fuel tank.
	X	**Strong, pungent or noxious odors**
	X	**Pools of liquid (other than water)**
	X	**55-gallon drum or large sack storage**
	X	**Unidentified substance containers**
	X	**Stains and/or corrosion on floors, walls or ceiling (except water)**
	X	**Drains and sumps**
	X	**Oil-water separator/clarifier**
		A three-stage clarifier was observed in the north service bay.
	X	**Electrical or hydraulic equipment known to contain PCBs**
	X	**Obvious signs of possible ACMs**

YES	NO	CONDITION OBSERVED ON/AT SUBJECT PROPERTY
	X	**Obvious signs of mold**
X		**Other areas of environmental concern**
		An inground piston potentially containing hydraulic fluid used in conjunction with a hoist was noted in the north service bay.

5.0. MATERIAL STORAGE

No containers, storage vessels, and containment systems (e.g., vaults, frac ponds, tanks, drums, storage lockers, silos) of 55 gallons or more for individual containers, or 100 gallons in aggregate for smaller containers, were observed on the subject property except for the four (4) USTs on the property.

The following storage vessels were identified on the subject property:

Tank Location	Southwest	Southwest	Southwest	Southwest	Unknown
Contents	Unleaded gasoline	Unleaded gasoline	Premium unleaded gasoline	Diesel fuel	Waste oil
Size/Capacity	10,000-gal	10,000-gal	10,000-gal	10,000-gal	550-gal
Operating Status	Operating	Operating	Operating	Operating	Not operating
Manufacturer	Unknown	Unknown	Unknown	Unknown	
Construction Material	Steel double wall	Steel double wall	Steel double wall	Steel double wall	Steel double wall
Construction/ Installation Date	Unknown	Unknown	Unknown	Unknown	Unknown
Secondary Containment	Yes	Yes	Yes	Yes	Yes
Spill Prevention	Yes	Yes	Yes	Yes	Yes
Overfill Prevention	Yes	Yes	Yes	Yes	Yes
Release Detection	Yes	Yes	Yes	Yes	Yes
Evidence of Releases	No	No	No	No	No

A spill detection/monitoring system (Veeder Root A29840-208) was observed to be monitoring the USTs. A three-stage clarifier was noted on the north service bay.

No other storage vessels, and containment systems (e.g., clarifiers, oil/water separators, vaults, frac ponds, tanks, drums, storage lockers, silos) of 55 gallons or more for individual containers, or 100 gallons in aggregate for smaller containers were observed on the subject property.

6.0. INTERVIEWS

Interviews performed during the course of this Phase I are described below.

Interviewee	Interview Summary
Property Owner	The current property owner was not interviewed during the course of this Phase I.
Site Manager	The current property manager was interviewed during the course of this Phase I. • Mr. Jose Angel Jovel, the District Manager in charge of the subject property for Valero has been associated with the property for the past 3 months. He is unaware of any hazardous materials incidents or illegal dumping at the subject property.
Property Occupant(s)	Property occupants were not interviewed during the course of this Phase I.
Local Government Officials	With the exception of file review requests, no local government officials were interviewed during the course of this Phase I.
Others	No additional interviews were performed during the course of this Phase I.

ASTM-compliant interview/questionnaire documentation is provided as Appendix D.

7.0. BUSINESS ENVIRONMENTAL RISKS – NON-ASTM SERVICES

Additional environmental considerations beyond the scope of the standard ASTM practice that have the potential to pose business environmental risks are discussed below.

7.1. MOLD

Molds are part of the natural environment. Outdoors, molds play a part in nature by breaking down dead organic matter such as fallen leaves and dead trees, but indoors, mold growth should be avoided. Molds reproduce by means of tiny spores; the spores are invisible to the naked eye and float through outdoor and indoor air. Mold may begin growing indoors when mold spores land on surfaces that are wet. There are many types of mold, and none of them will grow without water or moisture.

Molds are usually not a problem indoors, unless mold spores land on a wet or damp spot and begin growing. Molds have the potential to cause health problems. Molds produce allergens (substances that can cause allergic reactions), irritants, and in some cases may cause potentially toxic substances (mycotoxins) in humans who are exposed to molds.

At the time of the property reconnaissance, no obvious signs of mold/microbiological growth, were observed.

7.2. ASBESTOS CONTAINING BUILDING MATERIALS

Asbestos is a mineral fiber that has been used commonly in a variety of building construction materials. Asbestos was introduced to building materials on large scale during the 20th century because of its physical properties demonstrating its abilities as insulation, fire-retardant, material strengthening and durability, and it served as a good binding product. Because of these properties, asbestos has been used for a wide range of manufactured goods, mostly in building materials (roofing shingles, ceiling and floor tiles, paper products, and asbestos cement products), friction products (automobile clutch, brake, and transmission parts), heat-resistant fabrics, packaging, gaskets, and coatings.

Prior to the late 1970s, building products and insulation materials commonly contained asbestos. In 1989, the USEPA banned all new uses of asbestos; however, certain uses developed before 1989 are still allowed. When asbestos-containing materials are damaged or disturbed by maintenance, repair, remodeling or demolition activities, microscopic fibers can become airborne and inhaled into the lungs, where they can cause significant health problems.

The subject property structure was constructed in 1975. Based on the age of the building, the presence of asbestos-containing building materials (ACMs) at the property is possible. If any renovation or demolition is planned, AGI recommends performance of a full asbestos survey by a qualified asbestos inspector/consultant.

7.3. LEAD-BASED PAINT

Lead is a toxic metal that was used for many years in products found in and around our homes. Lead-based paint (LBP) was used extensively in buildings constructed before 1950. In 1978, LBP was banned by the federal government. Lead may cause a range of health defects, from behavioral problems and learning disabilities, to seizures and death.

The existing subject property structure was constructed in 1975. Based on the age of the of the building, the presence of LBP-coated surfaces is possible. If any renovation or demolition is planned, AGI recommends performance of a full lead survey by a qualified lead inspector.

7.4. RADON

Radon is a naturally occurring, colorless, odorless gas that is soluble in water. It is produced through the radioactive decay of uranium and radium, which is naturally present in soil and in minerals in bedrock. Radon is radioactive, which means that it breaks down or decays to form other elements. Radon concentrations generally differ among different rock types and can vary considerably within the same geologic formation. Radon moves from its source in rocks and soils through voids and fractures. It can enter buildings as a gas through foundation cracks or it can dissolve in ground water and be carried to buildings through the use of water-supply wells. Buildings with basements and concrete slab foundations are more susceptible to elevated levels of indoor radon gas. The inhalation of radon gas can cause damage to lung tissue.

A common unit of radioactivity measurement is picocuries per liter (pCi/L). The USEPA established the recommended safe radon level at 4 pCi/L. According to the USEPA, Los Angeles County, is located in a moderate radon potential area (Zone 2), defined as having a ‘predicted average indoor radon screening level of between 2 and 4 pCi/L'.

7.5. WETLANDS

As reported in Section 3.2., according to the EDR Report (Appendix C) the subject property is not located within a National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR from the U.S. Fish and Wildlife Service.

7.6. REGULATORY COMPLIANCE

CSI searched the subject property address, 1800 E. Garvey Avenue S, West Covina, California, on local, state and federal databases. No records were found regarding any outstanding regulatory permitting or requirements/directives in connection with the property.

8.0. EVALUATION

Any deviations from the ASTM Standard Practice 1527E-21 and USEPA AAI are presented below, along with the findings, conclusions, and opinions identified during the course of this Phase I.

8.1. DATA GAPS AND LIMITATIONS

A data gap occurs when a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice,

including, but not limited to site reconnaissance, and interviews. The following data gaps and/or limitations were identified during the course of this Phase I, which may deviate from the ASTM standard practice:

- The largest data gap in research was 9 years, between 1928 and 1938 and 1948, with the earliest researched information being a Topographic Map dated in 1894. Data gaps generally do not exceed five years between 1948 through the present, CSI does not believe any gaps in the data reviewed have affected the ability to identify recognized environmental concerns.

8.2. FINDINGS

Based on the standards set by ASTM Practice E1527-21, the following findings are differentiated below as Business Environmental Risk (including the presence of asbestos-containing materials, lead-based paint, mold or moisture conditions, or non-hazardous regulated materials may constitute a Business Environmental Risk), *de minimis* conditions unlikely to be subject to government enforcement, HRECs, CRECs and RECs, as defined in Section 1.1. of this report.

8.2.1. Business Environmental Risk

This assessment has revealed no evidence of potential Business Environmental Risks in connection with the subject property, except for the potential of asbestos containing building materials and lead-based paint. An asbestos and a lead-based paint survey is required by local regulations prior to demolition or renovation of the building.

8.2.2. *De Minimis* Conditions

This assessment revealed no evidence of potential or *de minimis* conditions in connection with the subject property.

8.2.3. Historical Recognized Environmental Conditions

This assessment has revealed no evidence of HRECs in connection with the subject property with the exception of the following:

- Regulatory agency records that were reviewed as part of this Phase 1 assessment indicate that the LADPW had a permit on file for the removal of two 5,000-gallon steel, two 8,000-gallon steel and one 10,000-gallon fiberglass USTs from August 1986. Apparently, results had not been provided to the LADPW and they were requesting that just the laboratory report needed to be submitted. Attached to the letter was a letter report from Geo-Etka, Inc. dated 25 August 1986. Five soil samples had been collected by Geo-Etka and analyzed by Anaheim Test Laboratory. The samples were analyzed for total hydrocarbons, BTE&X and total

lead. All analytes in the samples were below detectable limits and is therefore considered an HREC.

- In June 2004, piping and dispensers were upgraded. As part of the project, nine soil samples were collected beneath dispensers and piping. TPH-g (gas range) was detected in three samples at concentrations ranging from 0.44 mg/kg to 6.4 mg/kg. TPH-d (diesel range) was detected in two samples at 19,000 mg/kg and 48 mg/kg. MTBE was detected in two samples at 390 ug/kg and 45 ug/kg. Based on these results, the northwest dispenser islands, adjacent product trench and southern dispenser island were excavated on 18 June 2004 to remove the hydrocarbon impacted soil. Following the excavation of 146 tons of soil, confirmatory soil samples were collected. One sample contained TPH-g at 45 mg/kg, TPH-d at 5.7 mg/kg, MTBE at 1,100 ug/kg and TBA at 7,300 ug/kg. One additional piping excavation sample contained TBA at 46 ug/kg. The soil was transported to TPS Technologies in Adelanto, CA for recycling. Based on the results, the LADPW requested that a workplan to assess the vertical and lateral extent of the impacted soil in a letter from February 2007. No work was completed and in May 2013, the LADPW referred the case to the Regional Water Quality Control Board. The case was reviewed by the State Water Resources Control Board Order WQ 2014-0158-UST which was issued on 06 October 2014, indicates that the remaining contaminants falls under the Low Threat Closure Policy and as such requires the issuance of a uniform closure letter. On 03 March 2015, the Regional Water Quality Control Board issued a case closure letter. CSI compared the results of the impacted soil left in place to the current residential Environmental Screening Levels (ESLs), established by the Regional Water Quality Control Board in 2019. The concentrations of TPH-d, MTBE and TBA fall below residential screening levels and therefore are considered a REC.

8.2.4. Controlled Recognized Environmental Conditions

This assessment has revealed no evidence of CRECs in connection with the subject property.

8.2.5. Recognized Environmental Conditions

This assessment has revealed no evidence of RECs in connection with the subject property.

8.2.6. Potential Non-ASTM Environmental Issues

This assessment has revealed no evidence of potential non-ASTEM environmental issues in connection with the subject property.

8.3. CONCLUSIONS AND OPINION

Celly Services, Inc. (CSI), in conjunction with AdvancedGeo, Inc. (AGI), has performed a *Phase I Environmental Site Assessment* in conformance with the scope and limitations of ASTM Practice E1527-21, US-EPA AAI for the property located at 200 S. Azusa Avenue, West Covina, California. Any exceptions to, or deletions from, this practice or scope of work are described in Section 8.1. of this report or presented as non-ASTM services in Section 7.0. It is the opinion of the environmental professionals that the findings and conclusions presented in this report are reasonable and prudent, given the evidence as presented. CSI did not identify any RECs on the subject property during the course of the Phase I.

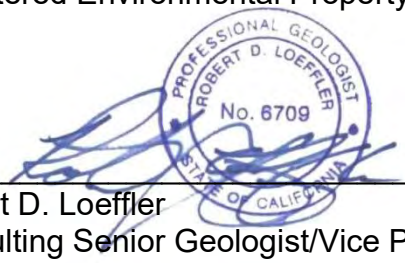

It should be noted that hydrocarbon impacted soil is present on the subject property will be encountered during future grading operations. Impacted soil may also be encountered near the clarifier/hoists in the repair area. CSI recommends that any impacted soil that is encountered be segregated, sampled for waste profiling purposes, and transported to a licensed disposal or recycler facility.

8.4. SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental professional as defined in §312.10 of 40 CFR § 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by AdvancedGeo, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 1554-4941-BBA5

Project Envision Toyota Dealership and

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 1554-4941-BBA5

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

AdvancedGeo, Inc. (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

BUILDING
PERMIT APPLICATION

This is a Building Permit When Properly Filled Out, Signed and Validated.

DECLARATIONS

The Declarations below are mandated by the State of California under Section 19825 of the Health and Safety Code

MADISON INDUSTRIES
CONTRACTOR APPLICANT [redacted]
ADDRESS [redacted] City [redacted] Zip [redacted]

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class C-12 License No. [redacted]
Date 6/29/81 Contractor [signature]

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, California Business and Professions Code: Any City which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance also requires the applicant for such permit to file a signed statement that he is a licensed contractor pursuant to the provisions of the Contractor's License Law (Ch. 9 (commencing with Sec. 7000) of Div. 3 of the B. & P. C.) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, B. & P. C., the Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, B. & P. C., The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. _____ B. & P. C. for this reason

Date _____ Owner _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure or a certificate of Worker's Compensation Insurance or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. 2428124 Company CHALMETTE

Certified copy is hereby furnished.

X Certificate will be filed with the Department of Building & Safety.

Date 6/29/81 Applicant [signature]

CERTIFICATE OF EXEMPTION FROM WORKER'S COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Worker's Compensation Laws of California.

Date _____ Applicant _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Worker's Comp provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.)

Lender's Name NONE

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City and State laws relating to the building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

DECLARATIONS

The Declaration below is mandated by the State of California under Section 19825 of the Health and Safety Code.

GENERAL PAINT. [redacted]
CONTRACTOR-APPLICANT Phone
[redacted]
ADDRESS City Zip

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provision of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect

License Class C42 License No. 214811
Date 10-20-81 Contractor GENERAL PAINT

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, California Business and Professions Code: Any City which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is a licensed contractor pursuant to the provisions of the Contractor's License Law (Ch. 9) (Commencing with Sec. 7000) of Div. 3 of the B. & P. C.) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

Date _____ Owner _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure or a certificate of Worker's Compensation Insurance or a certified copy thereof (Sec. 3800 Lab. C.).

Policy No. _____ Company _____

☐ Certified copy is hereby furnished.

☒ Certified copy is filed with the Department of Building & Safety.

Date 10-20-81 Applicant _____

CERTIFICATE OF EXEMPTION FROM WORKER'S COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Worker's Compensation Laws of California.

Date _____ Applicant _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Work's Comp. provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City and State laws relating to the building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

PLUMBING
PERMIT APPLICATION

DECLARATIONS

The Declarations below are mandated by the State of California under Section 19825 of the Health and Safety Code.

This is a Plumbing Permit When Properly Filled Out and Validated.

GEN. MAINTENANCE [redacted]
CONTRACTOR/APPLICANT Phone

[redacted]
ADDRESS City

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class C-36 License No. 274811

Date 10-30 Contractor GEN. MAINT.

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, California Business and Professions Code): Any City which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is a licensed contractor pursuant to the provisions of the Contractor's License Law (Ch. 9 (Comm'encing with Sec. 7000) of Div. 3 of the B. & P. C.) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, B. & P. C.: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, B. & P. C.: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. ____ B. & P. C. for this reason:

Date ____ Owner ____

WORKER'S COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure or a certificate of Worker's Compensation Insurance or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. ____ Company ____

☐ Certified copy is hereby furnished.

☒ Certified copy is filed with the Department of Building & Safety.

Date 10-30-91 Applicant ____

CERTIFICATE OF EXEMPTION FROM WORKER'S COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Worker's Compensation Laws of California.

Date ____ Applicant ____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Work's Comp. provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name ____

Lender's Address ____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City and State laws relating to the building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

Signature of Applicant or Agent — Date 10-30

License Class C-45 License No. [redacted]

Date 9/9/85 Contractor Hank Maint

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, California Business and Professions Code: Any City which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is a licensed contractor pursuant to the provisions of the Contractor's License Law (Ch. 9) (Commencing with Sec. 7000) of Div. 3 of the B. & P. C.) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Sec. 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, B. & P.C.: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, B. & P. C.: The Contractor's License Law does not apply to an owner of property who contracts with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. _____ B. & P. C. for this reason

Date _____ Owner _____

WORKER'S COMPENSATION DECLARATION

ADDRESS City Zip

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class [redacted] License No. [redacted]
Date 8-15-86 Contractor [signature]

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, California Business and Professions Code: Any City which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is a licensed contractor pursuant to the provisions of the Contractor's License Law (Sec. 7031 (commencing with Sec. 7000) of Div. 3 of the B. & P. C.) or that he is exempt therefrom and the basis for the alleged exemption. Any violations of Sec. 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500.00):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, B. & P. C.) The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, B. & P. C. The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. ____ B. & P. C. for this reason

Date ____ Owner ____

WORKER'S COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure or a certificate of Worker's Compensation Insurance or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. ____ Company ____

☐ Certificate is hereby furnished.

☐ Certified copy is hereby furnished.

☐ Certified copy is filed with the Department of Building & Safety.

Date ____ Applicant ____

CERTIFICATE OF EXEMPTION FROM WORKER'S COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Worker's Compensation Laws of California.

Date 8-15-86 Applicant [signature]

NOTICE TO APPLICANT: If after making this Certificate of Exemption, you should become subject to the Worker's Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

CALL FOR INSPECTION

24 Hour Notice: Number (626) 814-8425

Please state the type of inspection, the job address and permit number. Request for inspections should be made at least twenty-four hours in advance.

DECLARATIONS

In accordance with Health & Safety Code, Section 19825, all required declarations on the reverse side of this form have been properly signed and dated by the permittee.

Verified by:

EXPIRATION: This permit shall automatically expire and become void if work is not commenced within 180 days, or if work is suspended or abandoned for a period of 180 days.

INSPECTIONS: In order for the work authorized under this permit to be considered legal, such work must comply with all applicable codes, and all required inspections and final approval must be obtained. Failure to obtain inspections and final approval will result in the expiration of this permit.

FOR INSPECTIONS CALL: (626) 814-8425

DECLARATIONS

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

✓ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

✓ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: ACoED Policy Number: [redacted] Expires: 05/13/02

— I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Applicant Signature: [signature] Date: 6-21-02

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST AND ATTORNEY'S FEES.

LICENSED CONTRACTORS DECLARATION

I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code), and my license is in full force and effect.

OWNER-BUILDER DECLARATIONS

I hereby affirm under penalty of perjury that I am EXEMPT FROM THE CONTRACTORS LICENSE LAW for the following reason (Section 7031.5 of the Business and Professions Code states: Any City or County which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 commencing with Section 7000 of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):

— I, as owner of the property, or my employees with wages as their sole compensation, WILL DO THE WORK, and the structure is not intended or offered for sale. (Section 7044 Business and Professions Code: The Contractors License Law does not apply to the owner of a property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

— I, as owner of the property, am EXCLUSIVELY CONTRACTING WITH LICENSED CONTRACTORS to construct the project (Section 7044, Business and Professions Code, states that the Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) license pursuant to the Contractors License Law).

CERTIFICATE OF COMPLIANCE AND AUTHORIZATION TO ENTRY

I certify under penalty of perjury that I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction, and authorize representatives of the City of West Covina to enter upon the above-described property for inspection purposes. I agree not to occupy or allow occupancy of any building authorized by this permit until final inspection.

NOTICE TO PERMIT APPLICANTS: City of West Covina Personnel Rules and Building and Engineering policy prohibit City employees from soliciting or accepting gratuities or gifts of any kind from contractors, vendors, business operators, or homeowners. I have read and understand the above statement, signed. Steven Carter Date: 6/21/01

PERMIT APPLICATION

This is a Building Permit When Properly Filled Out and Validated.

DECLARATIONS

The Declarations below are required by the State of California under Section 19825 of the Health and Safety Code.

CONTRACTOR/APPLICANT — PHONE
ADDRESS — CITY — ZIP

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class _____ License No. _____

Fed. Tax ID _____ Contractor's _____

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, B. & P.C. The Contractor's License Law does not apply to an owner of property who builds improvements thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

I, as owner of the property, or my employees with wages as my sole compensation, will do the work, and the structure is not intended or offered for sale. However, I am exempt from the Contractor's License Law for the following reason (Sec. 7044, B. & P.C.: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, B. & P.C.: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. _____ B. & P. C. for this reason: _____

Date _____ Owner _____

WORKERS' COMPENSATION DECLARATION

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier _____ Policy No. _____

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that, if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date _____ Applicant _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all City and State laws relating to the building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/04/2023 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 12/04/2023 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/22/2024 has revealed that there is 1 ENVIROSTOR site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there are 3 SWF/LF sites within approximately 0.5 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 12/28/2023 has revealed that there are 2 PFAS ECHO sites within approximately 0.25 miles of the target property.

HIST CORTESE: The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

A review of the HIST CORTESE list, as provided by EDR, and dated 04/01/2001 has revealed that there are 3 HIST CORTESE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 3 UST FINDER sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 6 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The Used Oil Recycling System (UORS) is managed by the California Integrated Waste Management Board (CIWMB). The CIWMB helps communities establish and promote convenient collection opportunities for used oil and used oil filters.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 10/12/2022. OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. Observed 1 x 15-gallon drum of oily sludge labeled as hazardous with no accumulation start date. CORRECTIVE ACTION: Dispose of the hazardous waste that has been stored over the applicable time limit and provide a copy of the manifest/documentation showing proper disposal.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	152996
Site Name:	SAS C-Stores, Inc - West Covina Valero
Violation Date:	09-27-2023
Citation:	23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description:	Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines,

FINDS:
Registry ID: 110070898158

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110058264943

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
Registry ID: 110071379801

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The Used Oil Recycling System (UORS) is managed by the California Integrated Waste Management Board (CIWMB). The CIWMB helps communities establish and promote convenient collection opportunities for used oil and used oil filters.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker,

Site History: There is a State Water Board closure Order for this case issued 8/1/2014. The State Water Board needs confirmation that the corrective action wells and wastes have been removed from the site in order to close the case. Once confirmation has been received State Water Board can issue a Uniform Closure Letter and close the case. Attempts to reach the RP have failed. gwl 4/14/2016.

Site Name:	Tesla Service - West Covina
Violation Date:	09-26-2023
Citation:	HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description:	Hazardous Waste Generator Program - Operations/Maintenance - General
Violation Notes:	Returned to compliance on 11/08/2023. Observation: The generator failed to determine the status of a uniform hazardous waste manifested shipment within 35 days from the date the waste was shipped, and/or to submit an exception report to DTSC if a signed copy of the manifest isn't received within 45 days of the date the waste was accepted by the initial transporter. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that the generator has determined the status of the hazardous waste manifest shipment for 008340585SKS, 008543668SKS and 008543669SKS.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
Registry ID: 110070538915

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Citation:	HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507

VISTA PAINT #53 (Continued) **S113156918**

Violation Description: Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes: Returned to compliance on 12/15/2016. OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan. CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately. Also provide map and chemical inventory for this facility.
Violation Division: Los Angeles County Fire Department
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 379231
Site Name: 7-ELEVEN INC. #39343
Violation Date: 05-10-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: Returned to compliance on 05/30/2018. OBSERVATION: The business failed to electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA on or before the annual due date. The business last submittal was 2/11/2017. CORRECTIVE ACTION: Electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA within 30 days. On an ongoing basis, electronically submit and certify the business plan annually on or before the annual due date of March 15th of each year.

Violation Date: 01-07-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 01/11/2019.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 02/29/2024
Date Data Arrived at EDR: 03/01/2024
Date Made Active in Reports: 03/27/2024
Number of Days to Update: 26

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.
